Contents Vol. 33

Vol. 33, No. 1

Isotopic tracer studies of the conversion of alcohol mixtures with a high silica ZSM-5 catalyst
L.-M. Tau and B.H. Davis (Lexington, KY, USA) 1

A study of slag in laboratory, pilot and commercial scale furnaces using FTIR microscopy, electron microscopy and NMR spectroscopy
L.S.K. Pang, A.M. Vassallo (North Ryde, NSW, Australia), D. Phong-anant (Booval, Australia) and M.A. Wilson (North Ryde, NSW, Australia) 13

Dentrification of coal by mild pyrolysis in a novel coal feeder
T.L. Yeh, T.C. Keener, S.J. Khang and R.G. Jenkins (Cincinnati, OH, USA) 33

Halogen treatment of char for the removal of sulfur and mineral matter
C.J. Im, T. Durney and M.L. Matuszak (Bristol, VA, USA) 49

The factors affecting the growth kinetics of *Sulfolobus solfataricus*, a sulfur removing bacterium
T. Özbaş, T. Durusoy, A. Tanyolaç and Y. Yürüm (Ankara, Turkey) 61

Short Communication
On leachability of spent hydroprocessing catalysts
E. Furimsky, L.C.G. Janke and R. Dureau (Ottawa, Ont., Canada) 77

Vol. 33, No. 2

Desulfurization of low-sulfur coal by *Acidianus brierleyi*: Effects of microbial treatment on the properties of coal
G. Olsson, L. Larsson, O. Holst and H.T. Karlsson (Lund, Sweden) 83

Ultrasonically enhanced coal desulphurization
S.A.H. Zaidi (Karachi, Pakistan) 95

Simultaneous liquefaction of a subbituminous coal and upgrading of bitumen with molten $ZnCl_2$-based catalysts
A. Chakma (Calgary, Alta., Canada) 101

Wet and preheated carbonization of a Spanish high volatile coal and blends with a Spanish prime coking coal
R. Alvarez, E. Alvarez, C.S. Canga, M.A. Diez, A.I. González and H. Marsh (Oviedo, Spain) 117

Behaviour of extractives in a bark steam dryer
L. Fagernäs (Espoo, Finland), R. Ekman (Turku, Finland) and K. K. Sipilä (Espoo, Finland) 137

Short Communication
Role of minerals and additives during kerogen pyrolysis
Y.R. Rose, D.R. Smith (Kensington, NSW, Australia), R.A. Quezada, J.V. Hanna and M.A. Wilson (North Ryde, NSW, Australia) 149

Vol. 33, No. 3

Two-stage Liquefaction of a Spanish subbituminous coal
M.T. Martinez, I. Fernandez, A.M. Benito, V. Cebolla, J.L. Miranda (Zaragoza, Spain) and H.H. Oelert (Clausthal-Zellerfeld, Germany) 159

Stability of liquids derived from reaction of coal and lignin
J. Kim (Taejon, Korea), B.A. Akash, C.B. Muchmore, J.A. Koropchak and S.B. Lalvani (carbondale, IL, USA) 175
